NORLAKE® MB MASTER-BILT® Refrigeration Solutions

RETROFIT DOOR OPTIONS

Replacement solutions designed for your existing walk-in

DOOR ONLY REPLACEMENT

INCLUDES: Door, hinges, closer and handle

USE WHEN: Damage is confined to the door itself

OPTIONS: Door widths of 26, 30 or 36 in., metal finishes, door swing

DOOR AND FRAME REPLACEMENT

INCLUDES: Complete door panel sized to fit your existing RSG walk-in with all door hardware and external digital thermometer/light switch

USE WHEN: The door and frame are damaged and you can replace the entire door panel

OPTIONS: Door widths of 26, 30 or 36 in., metal finishes, door swing

SURFACE DOOR REPLACEMENT

INCLUDES: Complete door and frame ready to mount to the external surface of your existing walk-in. Ships with all necessary installation components.

USE WHEN: You have an older Norlake or Master-Bilt walk-in or it was manufactured by a different company

OPTIONS: Door widths of 26, 30 or 36 in., metal finishes, door swing

RSG RETROFIT DOORS NOW SHIP STANDARD WITH THE ECO DOOR FRAME

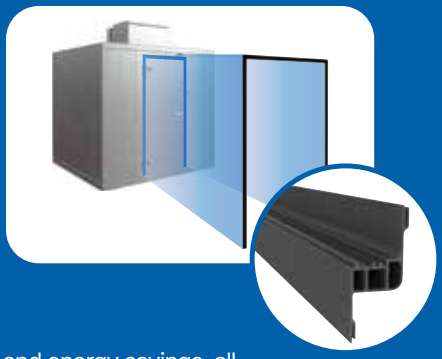
Save **300–500 kWh/year** on walk-in energy use with better durability, hygiene, and looks.

ENERGY SAVINGS

- Cuts door energy consumption **20–30%** vs. current industrywide standards
- Low thermal conductivity minimizes heat transfer and energy loss
- Meets DOE-proposed U-factor and energy conservation standards for walk-ins

BUILT TO LAST

Single-piece, one-piece extruded design — easy to clean, low maintenance, and a sustainable alternative to aluminum-PVC/FRP construction.



The ECO door frame features a unique one-piece design that delivers superior insulation and energy savings, all while being more cost-effective than competing options—offering high performance at a budget-friendly price.
